

YOUR COMMENTS

We asked if there were any other issues that you felt we should consider when developing the Neighbourhood Plan. Here are some of the typical ideas.

We should strive to provide a balanced community for young and old

Retain the rural atmosphere of the village

Green Belt land should be protected

Improve the village centre and try to join Chelford together

Buildings should be in keeping with the community and not a template style

A successful community is a mixed community

Footpath access networks across the Parish and link up with Public Rights of Way across the area
